

Cost

The cost of war can be high. We realize that cost reaches far beyond those called into duty abroad and into the families whose sacrifice in many ways can parallel those on active duty.

Mission Statement

“STAND” exists for the purpose of standing in the gap, physically, emotionally and spiritually, for the brave men and women and their families who are serving this great nation in military service.

Goal

Our goal is to share God's love with military personnel and their families. To come along side the entire family with prayer and spiritual support before, during and after deployment.

Prayer

We believe that prayer is a key component in lowering combat stress and family stress. Knowing this we use this powerful resource to come along side of you and stand in prayer.

Meeting
